Career Objective

MERN Stack Developer and B.Tech Information Technology student with hands-on experience building full stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in full stack development, REST API development, API integration, JWT authentication, authentication & authorization, and responsive web application development. Completed an internship at Siemens and multiple MERN-based projects with experience in developing scalable web applications and backend systems.

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive UI Development

Backend: Node.js, Express.js, REST APIs, API Development, JWT Authentication, Authentication & Authorization

Databases: MongoDB, MySQL, PostgreSQL, Database Management

Tools: Git, GitHub, Postman, PowerBI, API Testing

Internship

Data Visualization Trainee (Power BI) — Siemens Training Program

Mar 2024 – Apr 2024

- Completed a structured training program in Power BI focusing on data visualization and analytics.
- Built Power BI dashboards using datasets with over 1,000 records.
- Designed visual reports to support data analysis and decision making.
- Applied data cleaning, transformation, and reporting techniques following professional workflows.

Projects

AI Resume Analysis Platform (MERN Stack)

- Built a full stack MERN application using React.js, Node.js, Express.js, and MongoDB.
- Created 8+ REST APIs for resume analysis, API integration, and job matching systems.
- Integrated JWT authentication, protected routes, and backend security mechanisms.

Role-Based Access Control Dashboard (MERN Stack)

- Applied role-based access control (RBAC) using JWT authentication.
- Designed secure backend APIs using Node.js and Express.js for user management.

Invoice Management System (React)

- Built a React application to create and manage invoices.
- Stored and managed 50+ invoice records using browser storage.

CineVerse — Movie Review Application

- Built a React-based movie review web application using OMDb API integration.
- Enabled real-time search functionality and responsive UI design.

Certifications

MERN Full Stack Development — GUVI (4+ Months)

Data Analytics using Power BI — TANSAM

Web Development — Codebind Technologies

Education

Anna University — Panimalar Institute of Technology

Nov 2021 – Jun 2025

B.Tech in Information Technology

Graduation: April 2026

GPA: 8.21 / 10
